2. Claim 20 is allowable over the art of record because the prior art does not teach a planar stripline antenna comprising a double-sheath parasitic element array arranged to enclose the proximal end of the monopole, wherein the parasitic elements are shaped so that the distance between the inner edge of the parasitic elements adjacent the proximal end of the monopole and the monopole varies in such a fashion that the bandwidth of the antenna is broadened, and in combination with the remaining claimed limitations.
